Low headroom design

Manaras-Opera Presents Their Silencio™ Operators

Manaras-Opera is pleased to announce the addition of the **SILENCIO™** Apartment Style Trolley Operators to their line of Commercial Door OPERATORS.

SILENCIO™ Apartment Style Trolley Operators are **4 times quieter** than our Premium Apartment Trolley model (OTBH-A.05).

The **SILENCIO™** operators are backed by the **OPERA** brand's philosophy - providing excellence through innovation and reliability.

Features

- Apartment type garage door operators applicable for high cycling daily frequency requirements (>100 cycles/day). Door speed: 9"/second.
- The integration of numerous technologies reduce noise emissions, making the operator **4 times quieter**.
- Low headroom design: 7.360" headroom clearance required below the tracks.
- Cast iron pillow block bearings on input and output shafts increase the operator's durability.
- Available with an insulated drum-shoe type solenoid brake and cogged v-belt, for a longer lifetime and easier maintenance. The low vibration braking system provides positional stability and noise reduction.
- Patented **Accu-cam®** feature, which allows for precise and quick one-handed limit adjustments.
- Exclusively available with the ECB (**BOARD 070**), with or without the option of electrical control for MONITORED external entrapment protection devices.
- On-board radio receiver included.
- CSA22.2-247.92 and UL325 listed.
- 3 Year Warranty.
