### Manaras-Opera Improves the Durability of their Hood-Mount Angle Bracket

Manaras-Opera is pleased to announce that they have released a new and improved version of their hood-mount bracket - **BRACKET 111** - which is now being made out of cast steel instead of cast iron.

#### Product Details

- **BRACKET 111** is used for hood mount installations of commercial door operators.
- **BRACKET 111** is compatible with the jackshaft operator models: OMJ, OMH, OPJ, OPH, OHJ, OSH, OGH.
- Benefits of Cast Steel:
  - Higher tensile strength.
  - Reliable material.
  - Improved quality and appearance, since it undergoes processes such as quenching, normalizing and tempering of the metal.
  - Improved protection from corrosion due to the presence of elements such as Chromium.

The phasing in/out process was implemented as of 2017-03-08.
