been eliminated

Manaras-Opera's Improved Limit System

Responding to your needs, Manaras-Opera is pleased to announce that they have developed a new improved limit system for Electronic Operator applications, beginning January 26th, 2009.

What has changed

- Unique central lever has been eliminated.
- Each limit now has an independent lever which is specifically formed for a more consistent activation.
- The limit fastening screws have been replaced with easily accessible studs.

Changes made apply to the Opera line of electronic operators.
For experienced door technicians, it is possible to adjust the factory-set timer for the close limit.
Please refer to the instruction manual for further details.
For further information, please contact your Manaras-Opera sales representative.
