Manaras-Opera Offers New Warning Lights

Manaras-Opera is pleased to announce that it has added a new LED red/green warning light kit to its line of vehicle detection systems: **TRAFFIC 029A**.

- **TRAFFIC 029A** replaces TRAFFIC 029 (incandescent bulbs).

Features of TRAFFIC 029A

- Red and green LED traffic lights, 110V.
- LED bulbs have a longer lifetime of 100,000 hrs in comparison to incandescent bulbs, which need to be changed 1-2 times per year.
- LED technology uses a significantly less amount of electricity 5w (red) / 9w (green) in comparison to incandescent bulbs.
- Nema 4 protection.
- Kit includes: visors, side caps, mounting brackets and posts.

Pricing

- For pricing of **TRAFFIC 029A**, please contact your sales representative or our inside sales department.
